

Supporting the Waukee Economic Development Corporation

Our Investors and Board of Directors thank you for your interest in the Waukee Economic Development Corporation (WEDCO).

WEDCO's results-oriented key issues are made possible only through the contributions of time and money by visionaries who believe in Waukee. Growing our existing businesses and planning for increased high quality development is directly related to the energy of Waukee businesses, citizens and professionals, and the City of Waukee and elected officials.

WEDCO's goals for 2009-2011 include attracting additional investors to reach a funding level which will allow a budget for operational costs, branding and proactive marketing of Waukee as a preferred business location and continuing an effective economic development organization.

Investors provide an essential and direct impact on Waukee's future growth and development. These investments nurture Waukee and at the same time bring networking and visibility to you and your company through WEDCO's newsletter, website and events.

Join us in shaping the future of Waukee and invest in WEDCO!
